Lights! Camera?

December 23, 2020

INACTION!

Take a look, chumps!

Months and months have passed

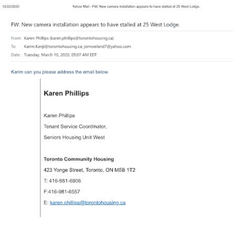
and they've spent thousands

and wasted thousands

but STILL

no CAMERAS!

Great news for the crooks – I mean the ones that don't – at least so far as anyone knows – work for Toronto "Murder" Housing.



12/22/2020 Yahoo Mail - FW: New camera installation appears to have stalled at 25 West Lodge.

Work on the new cameras at 25 West Lodge began several months ago but has still not been completed and there hasn't been any further activity for some time. Not having the cameras up and running months after their installation began looks like waste to me. They should be working. They would help to discourage at least some of the illegal activity that unfortunately still plagues us in the halls and other common areas at 25 West Lodge.

Perhaps someone should look into why the cameras aren't fully installed and working by now, some months after their installation began. Does it really take 3 months to install a camera?

Hopefully someone can get on this, get the process going and completed, and get these cameras up and running as they should be.

Kindly refer this matter to the appropriate party, and assign it a reference number for follow-up.

Best regards
Jon Rowland

Dear Jon Rowland,

Thanks for the email.

The Camera project has not stalled, as you have mentioned.

Please one has been completed and the second phase, which involves cameras on all floors, stairwells and additional ones on the park area is to start shortly.

The whole project is to be done over 2 phases, due to the scope of the work and also to accommodate other projects at the site , such as New lighting, exit towers and fire safety issues.

Hope this helps.

Thank you.

Best Regards
Karen Kanji

PS

The cameras still aren't working!
